ADMINISTRATION REPORT, 1893-94

No. 768 of 1894.

From

G. S. CURTIS, Esquire,
Acting Tálukdári Settlement Officer,
Gujarát;

To

J. K. SPENCE, Esquire,
Commissioner, N. D.

Ahmedabad, 10th August 1894.

Sir,

I have the honour to submit the following report on the administration of the Tálukdári Settlement Department for the year 1893-94.

2. Mr. Quin was in charge of the office till 14th April last, the date on which he went on leave to England, and since then I have been in charge in addition to my duties as Assistant Collector, Ahmedabad. The report is almost entirely based on notes left by Mr. Quin.

3. During the travelling season Mr. Quin visited the Sánand, Dholka, Viramgám and Dhandhuka Tálukas of the Ahmedabad District. He also visited the head-quarter stations of the Kaira and Panch Maháls Districts. In the course of my tour as Assistant Collector in charge of Parántij, I inspected the accounts of the Mámlatdár's kacheri there. Mr. Quin remarks that he has again been unable to visit the Broach District, but that he spent a week in Broach before the travelling season began and saw the principal Thákors who had any matter to bring to his notice. The estates in Broach are so few in number, and their circumstances so prosperous, that it is in his opinion hardly necessary for the Tálukdári Settlement Officer to visit the district every year. While the settlement of certain tálukas in the Ahmedabad District is proceeding, it is important that considerable time should be spent in that district, and this lessens the time available for visiting other parts of the charge. During the year under report, Mr. Quin's tour was also very considerably contracted by the necessity for a somewhat prolonged stay in the Dhándhuka Táluka, the revision settlement of which is now under consideration, and by his having to cut short his visit to the Kaira District, in order to return to Sánand to take up the enquiry into the Wánta-Talpad matter referred to in paragraph 81 below. He adds that he often finds that after any length of stay in the districts a considerable amount of work has accumulated, which can be disposed of with convenience in Ahmedabad only, and hence a stay of some days at head-quarters is often necessary.

4. The season on the whole was not so favourable in the Ahmedabad District as that preceding it, the excessive rainfall causing considerable damage to the kharif and cotton crops. The outturn of wheat was fair, but that of cotton bad throughout the district. Rice was an unusually heavy crop, but its quality was spoiled by a heavy fall of rain at reaping time, and consequently the price obtained for it was much below what might have been expected. Jowári and bájri were generally poor crops. In Kaira District the season was rather better and the crops were generally up to the average, though here too the unusually heavy rain did much damage to the rice. In Broach the season was, on the whole, not good. Cotton was spoilt by the excessive rain, as were the other crops; wheat alone seems to have been fair.

5. The following table shows the total number and revenue of estates of all descriptions under management and of the Tálukdári villages in Ahmedabad under revenue charge in the year under report and the preceding year. The different classes of estates shown in the table are noticed separately below :—

	Number.		Aggregate Revenue for Collection.		Amount realized by sale under decrees.	
	1892-93.	1893-94.	1892-93.	1893-94.	1892-93.	1893-94.

Encumbered Estates in Ahmedabad.

6. The number of estates under management under Act VI of 1862 was at the begining of 1893-94. 57. The debts of the estates noted in the margin having been paid off, these estates have been released from management during the year. The number still remaining under the operation of the Act is therefore 54.

Rámráo Lákha } of Samadiála.
Bhaga Lakhman }
Devising Jháiji of Bhojpura.

7. The number of estates released from management under the Act, but remaining under this office on account of debts due to Government, was, at the beginning of the year, five. One estate, that of Ganol, has been released during the year and the number still under management is therefore four. The balance of debt amounts to Rs. 7,007.

8. Of the estates at present under management, as shown in Appendices I and IA,

24 are managed directly by this office,

30 are managed by the Tálukdárs under the supervision of this office,

4 are managed by creditors under special arrangement.

9. The advances sanctioned in Government Resolution No. 4914, dated 7th July 1893, have been drawn during the year and paid to the creditors of the Sinaj and Kánpura Estates as follows :—

	Rs.
Sáwáji Rámáji, &c	3,689
Umáji Kasláji, &c	5,651
Hamirji Punjáji, &c	6,191
Okháji Dhanáji, ...	2,226
	17,757

The question of soliciting an advance from the treasury to pay off the debts of Aniáli Kasbáti is still under consideration.

10. The financial position of all the encumbered estates in Ahmedabad is shown in Appendices I and IA. An abstract of these statements is contained in Appendix IV, from which it will be seen that Rs. 22,778 were paid to private creditors and Rs. 19,364 to Government, and that a sum of Rs. 2,52,173 remains to be paid, of which Rs. 1,03,478 are due to private creditors and Rs. 1,48,695 to Government.

11. The payments made on account of debt settlement during the year under report, and those made during the previous year, are shown together for comparison in the following table :—

	1892-93.	1893-94.
	Rs.	Rs.
Total debt outstanding at commencement of the year	2,91,246	2,68,775
Added during the year	20,914	...
	3,12,160	2,68,775
Paid during the year—		
To reduction of debt	43,385	16,602
To interest on loans	6,931	7,783
	50,316	24,385
Balance ...	2,68,775	2,52,173

12. The average payment for the year under report is 9 per cent. of the total sum due, and the reduction of debt is 6·1 per cent. of the same. The corresponding percentages last year were 10 and 7·7.* The results of the year's transactions are therefore not as satisfactory as usual. The cause is to be found in the unfavourable nature of the season, which caused a large falling off in the revenues of several of the estates.

13. At the end of last year 32 of the estates under management were indebted to Government. During the year under report, the estates of Rámrao Lákha and Bhaga Lakhman of Samadiála and Merubhai Falji of Ganol were freed from debt, and advances from Government were taken in the case of the estates of Sáwáji Rámáji, &c., Umáji Kasláji, &c., Hamirji Punjáji, &c., and Okháji Dhanáji of Sinaj and Kánpura; hence the number of estates now indebted to Government is 33. Of these, 4 are no longer under the operation of Act VI of 1862.

14. The debt of the Makhiáv Estate has slightly decreased during the year and now stands at Rs. 39,698 against 40,662 last year. A sum of Rs. 3,000 has been paid towards discharging the arrears of interest due for last year, and a portion of that due for the current year on the debt due to Government. During the year under report special attention has been paid to the condition of this estate. Measures have been taken to enlarge the cultivable area by the construction of earthen embankments, which will, it is hoped, in a few years materially increase the income of the estate. The four-anna sharer, who has hitherto been an obstacle in the way of introducing any such improvements, has agreed at last to pay a part of the cost of such works as benefit his land equally with that of the minors, who own the remaining twelve-anna share.

15. The estate of Khámbha in Gogha was again farmed out and during the year under report a sum of Rs. 990 was collected. Of this sum, only Rs. 280 were paid in liquidation of the debt before the close of the year, owing to the non-attendance of the creditors to receive payment. The balance will shortly be paid, and when that is done, the debt will stand at Rs. 4,555. The advance sanctioned for this estate has not yet been drawn.

* *Note.*—The difference between there figures and those shown in the report for last year are due to the latter having been discovered to be incorrect.

16. The Viramgám Estates have all done fairly well during the past year. In Dhandhuka, the Bela and Bodana Estates have again been unable to make any substantial payment towards the reduction of their debts. The Jhánjharka Estates also, which did so well last year, have paid nothing during the year under report, the unfavourable season having spoilt the cotton crop, which is the chief source of their revenue. No payments of liquidation of debt appear in the Appendix I opposite the Aniali Kasbáti Estates, the Tálukdárs having paid only half the instalments due from them, which again, owing to some confusion in the accounts, it has been found impossible to pay to the creditors before the close of the year.

17. A new lease is to be issued to the Kasbáti Latifkhán of Dholka. A draft was sent down for report and, in order that Latifkhán might be consulted as to his acceptance of its provisions, directions were given that it should be translated into Gujaráti. Considerable time elapsed before the translation was received by this office. On its being shown to Latifkhán by the Mámlatdar, the Kasbáti took objection to it in its entirety and announced his intention of submitting to Government that he is not a mere lease-holder and should not be given a lease when Talukdárs are not given any. This is not the first time he has taken up this position. His representations are still awaited.

Encumbered Estates in Kaira.

18. The number of estates managed under Act XXI of 1881 at the beginning of 1893-94 was 38. During the year, the four estates shown in the margin have paid off their debts and their release from the operation of the Act will now be notified. The condition and prospects of all four are satisfactory. Thirty-four estates now remain under management. No advance was taken from the Government treasury during the year under report.

Bháratsing Báwáji of Nápad.
Himatsing Dádábáwa of Nápa.
Jesingbhai Dájibhai of Ránia.
Bhulan Khán Umráo Khán of Anghadi Padhia.

19. The financial position of each of the 38 estates is shown in Appendix II. An abstract of this statement is contained in Appendix IV, from which it will be seen that Rs. 15 were paid to private creditors and Rs. 28,611 to Government, and that a sum of Rs. 1,35,623 remains to be paid, of which Rs. 6,076 are due to private creditors and Rs. 1,29,547 to Government.

20. The payments made on account of debt settlement during the year under report compare with those of the previous year as follows:—

	1892-93.	1893-94.
Total debt outstanding at commencement of the year ...	1,81,181	1,57,352
Added during the year	.....	.....
	1,81,181	1,57,352
Paid during the year—		
To reduction of debt	23,829	21,729
To interest on loans	8,320	6,897
	32,149	28,626
Balance ...	1,57,352	1,35,623

21. The average payment for the year under reprot is 18·1 per cent. of the amount due at the commencement of the year, and the percentage of reduction of debt is 13·8. The corresponding figures given last year were 17·7 and 13·15. The results of this year's management have therefore been satisfactory.

22. The amount due to private creditors is small, amounting to only Rs. 6,091, of which Rs. 15 have been paid during the year. This at first sight seems, as remarked in paragraph 9 of the Commissioner Northern Division's

remarks on last year's report, unsatisfactory, but is not so in reality. It is to be accounted for, to some extent, by the fact that in one important estate, that of Kàira, a large amount of the debt due was originally secured on house property. As the income received from the property, by way of rent, has always been small, it has been considered advisable for some years to allow creditors to enjoy the use of the houses in lieu of interest, instead of discharging their debts at once by advances from Government. By this arrangement, the whole surplus revenue is available towards the discharge of the loan taken for the other creditors. When this loan has been liquidated, the mortgagees of the house property will be paid off, either by advances from the treasury, or by such surplus revenue as may be available from time to time.

23. The estate of Sálol has paid only a small sum during the year, and its condition is most unsatisfactory. Particular attention will be paid to it during the current year.

Encumbered Estates in Broach.

24. The number of estates under management under Act XXI of 1881 was, at the commencement of the year under report, 5. During the year the estate of Jitsingji Bhimsingji of Sigám, has paid off its debt, and its release from management will now be notified. Four estates still remain under the Act. No advance was taken from the Government treasury during the year under report. The financial position of each of the estates is shown in Appendix III. An abstract of this statement is contained in Appendix IV, from which it will be seen that during the year Rs. 3,047 were paid to private creditors and Rs. 4,109 to Government, and that a total sum of Rs. 31,896 remains to be paid, of which Rs. 24,852 are due to private creditors and Rs. 7,044 to Government.

25. The payments made on account of the debt settlement during the year compare with those of the previous year as follows :—

	1892-93.	1893-94.
	Rs.	Rs.
Total debt outstanding at commencement of the year ...	64,419	38,568
Added during the year	.....	.....
	64,419	38,568
Paid during the year—		
To reduction of debt	25,851	6,672
To interest on loans	1,470	484
	27,321	7,156
Balance	38,568	31,896

26. The average payment for the year under report is 18·5 per cent. and the reduction of debt is 17·3. The corresponding figures given last year were 42·4 and 40·1. The reduction in the percentage is due to the fact that last year's figures were swelled by unusually large payments on behalf of two large estates, which were released from attachment during the year.

27. The estate of Sarod was released from management under Act XXI of 1881 at the end of last year, but on the application of the Thákor, Government were pleased to sanction the continuance of the management under Section 28 of Act VI of 1888. The estate, therefore, is still under management, but under a different law. The arrangement for the settlement of the private debts of the Thákor is still under consideration.

28. The Broach estates are generally in a fairly prosperous condition and are making satisfactory progress towards the complete discharge of their debts.

Gagubha Bhupatsing of Kharad.
Becharsing Falji of Pánchi.
Ladhubhai Náyábhai of Aniáli Bhimji.
Dalumia Mirásáheb
Nánumia Mirásáheb } of Parántij.
Chándmia Mirásáheb
Ráesingji Jibáwa of Sarod.

Mohan Nathu of Návda.
Nathuji Fattesingji } of Moyadwás
Kesrising Fattesingji } Rupáji.

29. At the close of last year there were 53 minors' estates under management. During the year under report, the estates of the minors named in the margin were released on their owners attaining their majority. The minor of Dhingda died during the year. The estates of the three minors shown in the margin came under management during the year. The total number of minors' estates now under the control of this office is, therefore, 48.

30. Of the estates released from management under Act VIII of 1890, that of Ladhubhai Náyábhai remains under attachment by order of the Civil Court in satisfaction of decrees obtained against it. The other estates released require no particular notice.

31. As stated in paragraph 32 of my last year's report, the Collector of Ahmedabad has been appointed guardian of the minor Syed Mohmed Sáheb Báwámia of Ahmedabad, a hereditary priest of the Navab of Junághad. The estate includes an inám village in Sánand and some houses in Ahmedabad, but the bulk of the property consists of some villages in Junághad State. I have applied through the Political Agent of Káthiáwár to obtain a list of the property there and the income thereof, but I have not yet been able to obtain it owing to some objection taken by the Junághad Darbár. The estate in Ahmedabad has yielded a revenue of Rs. 3,498, while the charges against it have been only Rs. 1,597; there appear, moreover, to be no incumbrances against it. As the net revenue of the villages in Junághad is supposed to be some Rs. 5,000, the estate may be said to be in a very satisfactory condition.

32. The most important estate brought under management during the year is that of Mohan Nathu, son of Nathu Kala, a wealthy Bania of Návda in Dhandhuka, who was murdered by some Grassias on 13th January 1893. It consists of land valued at Rs. 23,500 in various villages in Dhandhuka, money claims on lands and decrees amounting to about Rs. 2,54,600 and a cash balance of Rs. 11,000, and has been placed by the Court under the Collector's management, owing to the absence of any relation of the deceased, who could be fitly entrusted with the care of the boy and his property. As the larger part of the land belonging to the estate, or over which the estate has claims, is situated in Tálukdári villages, the Collector has transferred the care of the person and property of the minor to this office. The minor has been brought to Ahmedabad and placed under the charge of an Assistant Master in one of the English schools, with the sanction of the Educational Inspector, Northern Division. Steps are being taken to effect the recovery of the money due to the estate by moving the Civil Courts to enforce the execution of the decrees passed, and of the cash balance Rs. 6,000 has been invested in mortgage at 6 per cent. interest on the security of a portion of a Tálukdári estate in Dhandhuka.

33. As mentioned in paragraph 33 of last year's report, efforts have been made during the year to find investments in mortgages on landed property for the surplus balances belonging to the different minors' estates. The result has been that Rs. 30,000 from the Jhanor Estate and Rs. 15,000 from each of the Mátar and Nadiád Desái's estates have been invested at 6 per cent. in a mortgage on the inám village of Bhimnáth in the Dhandhuka Táluka. These three estates are most prosperous, and at the end of the year had balances of Rs. 1,30,768, Rs. 35,728 and Rs. 28,995 respectively. Of the Jhanor balance Rs. 1,06,000 is invested in land, Rs. 91,000 at 5 per cent., and Rs. 15,000 at 6 per cent. The remaining balance will be similarly employed if opportunity offers. Other flourishing estates are those of Bápumia of Viramgám and Gagubha of Rojka, from which Rs. 5,000 and Rs. 3,000, respectively, were invested in Government paper during the year.

34. Appendix V shows that, taking together all the minor estates under the charge of this office, the total realizations during the year under report

amounted to Rs. 91,523 as against 1,01,654 in 1892-93. Including the balances in hand at the commencement of the years, the figures are Rs. 2,30,241, and Rs. 2,45,691. Out of the year's revenue Rs. 64,013 were expended on Government jama, maintenance and other charges, while Rs. 18,876 were paid to creditors, and Rs. 8,634 were carried over as surplus balance. The total amount invested in Government securities is Rs. 52,000, Rs. 1,37,000 are invested in landed property and there is a cash balance of Rs. 54,352.

ESTATES UNDER SECTIONS 320 AND 504 OF CIVIL PROCEDURE CODE.

35. The number of estates under management at the beginning of the year under report in accordance with the provisions of Section 320 of the Civil Procedure Code was 294 as against 241 at the beginning of 1892-93. During the year 40 were released from attachment, and 54 newly brought under management, leaving a total of 308 at the end of the year. The circumstances of the most important of these estates are dealt with below.

36. There were five estates under management under Section 504 of the Civil Procedure Code at the end of 1892-93. During the year under report, one was released from management and one estate was newly attached, so that the total number under the control of this office is still five.

37. I regret to have to report that the hopes expressed in paragraph 41 of last year's report, regarding the settlement of the disputes in connection with the Bhankoda Estate, have not been altogether fulfilled, a fresh dispute having arisen in the course of the past year which has prevented any joint action on the part of the different sharers in the estate for the reduction of their debt. I understand, however, that this dispute has just been settled, and that there is still a possibility that the Thákors may agree among themselves to place the whole of their estate under the management of this office.

38. The debts of the Aghár Thákors, amounting to Rs. 1,50,000 nearly, have been compromised for Rs. 70,000, of which Rs. 65,000 will be borrowed with the sanction of this office, and the remainder paid from the balances in hand.

39. Practically speaking no progress has been made in the litigation relating to the succession to the Gangad Estate. During the year under report the case has been transferred from the Court of the First Class Subordinate Judge to that of the District Judge, owing to the Collector, in his capacity as guardian of the minor Thákor of Makhiáv, one of the claimants to the Gádi, having been joined as a co-defendant. One of the claimants to the Gadi, the alleged son of Motiba, widow of Jasvatsing Agarsingji, has been finally got rid of, having been declared spurious by the High Court.

40. With regard to the settlement of debts, the complications connected with the scheme submitted by Mr. Quin to Government have been got over, and sanction accorded to it by Government Resolution No. 5660 of 5th August 1893. I regret, however, to say that it has been found impossible so far to carry the scheme into effect. The scheme, it may be noted, involves the raising of a loan on the security of the estate to clear off the incumbrances on the Bávla-Wánta, and other outlying properties with a view to their being subsequently sold; the purchase money realized to be utilized towards the liquidation of the debts of the estate. But so far it has been found impossible to induce any lender to come forward and take up the loan at a rate of interest, which would be remunerative to the estate. The affairs of the estate are extremely involved, and local capitalists seem sceptical of the value of the security offered. Moreover, the demand for money this year has been so great and the rate of discount so high that the investment offered very little attention. I am still, however, negotiating with certain sávkárs, and have hopes of obtaining the money shortly. If the Bávla and other Wántás can once be freed from encumbrance, they will realize a very high price.

41. During the year under report the secured creditors have received Rs. 5,000, and the unsecured creditors nothing. This is of course unsatisfactory in the extreme.

42. The work of preparing the registers of small numbers, made last year by breaking up the large numbers, in the various villages of the Gangad Estate has been completed. Everything, therefore, is now ready for the introduction of bighoti rates in the place of the old bhágbatái or share sytem. A schedule of bighoti rates has been prepared and sanctioned by the Collector of Ahmedabad; and notifications have been issued to the cultivators to the effect that assessment at these rates will be taken from them during the revenue year 1894-95.

43. The decision of Mr. Beaman in the boundary dispute between the Gangad Estate and the Thákor Sáheb of Limbdi as to the boundaries of Siál and Báoli has at length been received. Mr. Beaman, in his decision, has differed from both the arbitrators appointed by the parties to the dispute, but in effect his judgment is in favour of Limdi, who is awarded a very large part of the area claimed by him. The net result is a transfer to Limbdi of some 4,000 acres of Bhál land which could with some small expenditure of capital be made highly productive. There are several points in the decision which seem open to exception, and I have accordingly, under instructions from Mr. Quin, moved the Collector of Ahmedabad, as administrator of the estate, to consent to the filing of an appeal. To this proposal the Collector has given his consent. An appeal is at present in course of preparation and will shortly be placed before Government.

Miscellaneous Estates.

44. At the end of last year there were 18 estates under this head. During the year under report 8 new estates came under management and 3 were released, making the total number now under this office 23. Of this 10 are in Ahmedabad, 10 in Kaira and 3 in Broach; eighteen of these in all are managed under Section 28 of Act VI of 1888, and one under Section 26 of that Act. Of the eight estates newly taken under management during the year, (all of them under the provisions of Section 28 of Act VI of 1888), the most important is that of Sarod alluded to in paragraph 27 above. Of the others the largest are the estates belonging to Takhatsing Sardársing of Kherda, Táluka Ánand, and Ráisingji Dádábáwa of Bhetasi, Táluka Borsad. The two estates released from management are that of Musámia of Shah Allam and that of the Thákor of Koth. The former estate is now free from debt, and, as its owner is a very intelligent man, it is to be hoped that he will be able to keep it in a prosperous condition.

45. The latter estate, after remaining under Government management for three years and three months, was released and handed over to the Thákor on 31st March 1894. The results of the management have been most satisfactory and creditable in every way to the Deputy Manager, Mr. Huttising Ráichand. The area under cultivation has been enlarged, and the revenue increased by over Rs. 14,000, and though a sum of Rs. 56,034 was paid to creditors, and Rs. 33,100 to the Thákor, it was found possible, when the attachment was removed, to hand over a balance of Rs. 20,000 in cash. It is to be hoped that the Thákor's management may be equally successful. Government have been pleased to issue a commission under Section 88 of the Land Revenue Code to the Thákor's Kárbhári, Mr. Dalsukhrám Hargovind, which will facilitate the work of collecting the revenue; and if carefully looked after, the estate should prosper. The Thákor's private debts have all been paid off, but he is still, I regret to say, on bad terms with his mother.

46. The attachment under Section 26 of Act VI of 1888 of the village of Chasiána still continues, as the dispute among the sharers has not yet been settled. The balance in hand amounts to Rs. 50,000 in Government securities and Rs. 6,116 in cash.

47. The lease for the Kasbáti village of Chándna, the grant of which for seven years was sanctioned by Government in their Resolution No. 4366, dated 17th June 1893, is under preparation and will shortly be submitted. It has been delayed, owing to the fact that it is to be on the lines of the lease granted to Latifkhán, the terms of which have not yet been settled. The young Kasbáti

after some preliminary training, has been given the post of Taláti in his own village, and appears to do his work satisfactorily.

48. The decree against the Dharoda Estate, which has been under attachment since 1871, has not yet been satisfied, and the village still remains under management.

49. The appeal of Khumánsingji of Dehewán against the decision of the First-Class Subordinate Judge, declaring his brother Merámansingji's title to the estate is still pending. The estate is a good one, and it is to be regretted that some settlement of this dispute cannot be arrived at, as the continuance of the litigation is ruinous to both parties. The income this year amounted to Rs. 12,836, and expenditure Rs. 11,748, and the balance with that of the previous year is Rs. 4,095. Of the expenditure Rs. 1,500 were given to the Thákor for the funeral expenses of one of his brothers and for litigation, in addition to Rs. 4,200 given for maintenance.

50. I have not much to record with regard to the Thákor of Gamph. He continues to evince considerable interest in the management of his estate, and has taken steps to improve the sanitation of the village in which he resides by arranging at his own cost for the cleaning and lighting of the streets. The estate is very much embarrassed, and I am afraid that the past year's revenue has not been up to the average.

GENERAL ADMINISTRATION OF TÁLUKDÁRI VILLAGES IN AHMEDABAD DISTRICT.

51. There are 357 Tálukdári villages in Ahmedabad under the revenue charge of this office, and their *jama*, inclusive of Local Fund cess, amounts to Rs. 3,82,585, of which Rs. 29,426 is on account of Local Fund cess. The whole has been collected, with the exception of Rs. 4,733 in the Dhandhuka Táluka. This sum is on account of the Návda Estate.

52. The net income of this estate for 1892-93 was Rs. 6,698, which fell short of the jama for the year by Rs. 1,780. This amount has been written off with the sanction of the Commissioner, Northern Division. For the year under report, the gross revenue has, owing to the unfavourableness of the season, declined to Rs. 4,641; after the expenses of management have been deducted, the balance will fall short of the jama by about Rs. 3,718, which will have to be remitted.

53. The dispute between Shet Tribhovandás Jádavji and the heirs of Desái Sámaldás Bechar, as to the right of the former to have his name entered in the records, in the place of the late Desái, as owner of the Tálukdári village of Aniáli Káthi (to which allusion was made in paragraph 59 of last year's report), has been settled by the Desái's heirs acknowledging Mr. Tribhovandás' claim. The differences between the original Káthi owners of the village and Mr. Tribhovandás, however, still continue, notwithstanding the efforts made by the Tálukdári Settlement Officer to remove them. Mr. Tribhovandás originally agreed to allow the Káthis land in the village, and a Panch was appointed to decide which lands they should have. The Panch were unable to agree, and the matter was referred to Mr. Quin to decide, Mr. Tribhavondás only insisting that no land should be given to the Káthis on the railway side of the village, as he is desirous of building a ginning factory there. Mr. Quin visited the village during his tour and, after going over all the land, recorded his conclusion that unless some of the land on the railway side, which is most fertile and best irrigated, was given to the Káthis, no satisfactory settlement of the quarrel could be arrived at. Mr. Quin informed Mr. Tribhovandás of his opinion, but the latter declined to act upon it, and refused to sell any of the land on the railway side. He further refused to enter into any negotiations with the Káthis for the resale of the village to them. He offered to assign to the Káthis any land that Mr. Quin might select, except that on the railway side, or to settle on them an annuity of Rs. 1,000, provided they completely evacuated the village. These terms were communicated by Mr. Quin to the Káthis, and have been under their consideration for some time. I understand, however, that they are unwilling to accede to them, and are again endeavouring to induce the Bania to resell the

village to them. The matter has been referred to arbitration and will, I hope, be settled shortly.

54. The following table shows the collection and expenditure of the Local Fund in Tálukdári villages of Ahmedabad in the year under report:—

Name of Táluka.	Amount of Local Fund collected Rs.	Amount of Local Fund expended. Object.	Rs.	Total Rs.
Dholka	9,285	Repairs to School-houses	181	
		Do. to Dharmsháláś	63	
		Do. to Tanks	273	
		Do. to Wells	109	
		Do. to Wells and troughs	93	
		Do. to Cart tracks	29	
				748
Dhandhuka... ...	12,042	Repairs to School-houses	229	
		Do. to Dharmsháláś	119	
		Do. to Tanks	8,236	
		Do. to Wells	307	
				8,...
Viramgám	2,711	Repairs to School-houses...	168	
		Do. to Dharmsháláś	2	
		Do. to Tanks	321	
		Do. to Wells and troughs	864	
				1,355
Sánand	3,636	Repairs to School-houses...	19	
		Do. to Dharmsháláś	30	
		Do. to Tanks	662	
		Building wells and troughs	720	
		Repairs to wells	37	
				1,468
Gogha	1,752	Repairs to School-houses	45	
		Do. to Dharmsháláś	42	
		Do. to Wells....	100	
				187
Total ...	29,426 ...		...	12,649

55. The collection and expenditure as shown above compare as follows with those of the previous two years:—

Year.	Amount collected from the Villages.	Amount expended in the Villages.	Percentage.
	Rs.	Rs.	Rs.
1891-92	26,478	13,951	56·6
1892-93	26,478	14,139	53·3
1893-94	29,426	12,649	42·9

The increase in the amount collected during the current year, as compared with 1892-93, is due to the introduction of the revised jama settlement in the Dholka Táluka, the effect of which has been to increase the amount of Local Fund cess leviable in that táluka.

56. The following table shows the collection and expenditure of the Local Fund in the Tálukdári villages in Kaira:—

Name of Táluka.	Amount of Local Fund collected. Rs.	Amount of Local Fund expended. Object.	Rs.	Total Rs.
Thásra	959 ...	Building wells	2,498	2,498
Borsad	710 ...	Repairs to wells	357	417
		Repairs to road	20	
		Water Parab	25	
		Repairs to school	15	
Mátar	1,011 ...	Repairs to wells	118	199
		Repairs to tanks	81	
A'nand	1,579 ...	None.	...	...
Kapadvanj	137 ...	None.	...	...
Total ...	4,396 ...		...	3,114

57. The collection and expenditure of Local Fund as shown above compare as follows:—

Year.	Amount collected from the Villages.	Amount expended in the Villages.	Percentage.
	Rs.	Rs.	
1891-92	6,760	1,874	27·7
1892-93	6,760	644	9·4
1893-94	4,396	3,114	70·8

58. From these figures it appears that during the year under report, the amount of Local Fund money spent in the Ahmedábad Tálukdári villages was less by nearly Rs. 1,500 than the amount spent in the previous year. This decrease is not satisfactory and care will have to be taken that Tálukdári villages are not neglected. The sum allotted in Kaira, on the other hand, was largely in excess of that allotted last year and amounted to 70·8 per cent. of the total collections. It is to be hoped that the percentage of expenditure may remain at something like this figure in future. The greater part of the money allotted in Ahmedabad was spent on tanks and wells; there was one large work, the repair of the tank at Ganiph, under construction, which cost Rs. 4,762.

59. The appeals of the Thákors of Wála and Utelia to the Government of India as to the non-liability of their Tálukdári Estates to pay Local Fund cess have been rejected by that Government, and the orders of the Bombay Government on the subject have been upheld. The Thákors have been informed accordingly.

60. The proposals for altering the existing arrangements for meeting the charges for boundary-mark inspection and for the erection and repair of boundary-marks in Tálukdári villages have been approved by Government during the year. In their Resolution No. 6921 of 26th September 1893, Government have been pleased to order that in future no portion of the cost of the establishment entertained for the inspection of boundary-marks in Tálukdári villages should be recovered from the Tálukdári Estates, but that the whole cost, instead of as hitherto one-half, should, in future, be defrayed by Government; that the contribution, hitherto levied in advance, towards the Boundary-marks Repair Fund should be levied no longer, and that the balance in hand on that account should be refunded to the parties concerned. The repairs of the boundary-marks will now be conducted in the same manner as is done in Government villages, under Section 122 of the Land Revenue Code.

61. During the year under report, Mr. Quin visited the Táluka offices of Dhandhuka, Dholka, Sánand and Viramgám in the Ahmedabad District, and those of Mátar, Mehmadabad, Nadiád and Anand in the Kaira District; the accounts of the Tálukdári Estates kept by the Mámlátdárs of these places were carefully examined by Mr. Quin personally and by his office establishment. I also myself inspected the Tálukdári accounts at Parántij. The results of the inspection showed that, except in Dhandhuka, the accounts were fairly kept, and were generally in a much better state than when last year's inspection was made; but there is no doubt that to prevent the Mámlatdár's establishment neglecting these accounts, a regular annual inspection is necessary.

62. Appendix VIII gives a list of the Tálukdári Estates which are under management for the collection of the jama.

Education of Minors.

63. The young Thákor Sursingji of Utelia has again done very well at Rájkumár College at Rájkot, taking an extra prize in his class. The number of boys attending the Wadhwán Grássia School is 9 as against 10 at this time last year. No new boy has been sent to this school during the year under report. All the boys attending this school have received good reports this year. Two minors reside in the Jubilee Institute, Ahmedabad, and go to schools in the city.

64. Attention has as usual been paid to the education of minors who are unable to afford to join the Grássia School at Wadhwán. They generally attend the schools in their villages.

Revision Survey and Settlement.

65. During the year under report, Mr. Holland continued to hold the office of Assistant Settlement Officer in charge Tálukdári Survey. Besides supervising the operations of two Government survey parties, he was engaged in a survey of the Tálukdári villages in the Panch Maháls District and in making proposals for the settlement of the revised maximum rates for Sánand and Viramgám. Proposals for the revised maximum rates to be imposed in Dhandhuka were also received from him and submitted for the orders of Government.

66. During the year under report, Government sanction has been received to the revised maximum rates, which are to be introduced in the Gogha villages. The only thing now remaining to be done is the preparation of the faisal patraks, for which Government have recently (in their Resolution No. 6129, dated 20th July 1894) been pleased to sanction the entertainment of a temporary establishment. As soon as this work is completed, proposals with regard to the fixing of the jama will be submitted for orders.

67. Petitions have been received during the year from all the Tálukdárs of Dholka, expressing dissatisfaction with the revised jama settlement introduced from 1893-94. The principal details, among others, of the settlement, to which they take exception, are the percentage of the produce levied as jama, and the inclusion in the area of land liable to jama of (1) waste land, (2) certain alleged alienated land. These petitions were addressed to the Collector of Ahmedabad and were submitted through this office. A full report on the whole subject was submitted by Mr. Quin in December last, and the matter is now awaiting the orders of Government. I may add here that the Utelia Darbar have recently given notice to the Collector of their intention to file a suit in the Civil Court, with a view to testing the legality of the orders passed by Government in increasing the jama. This fact has been brought to the notice of Government, with a suggestion that the Darbár should be asked to postpone the institution of proceedings in the Courts until the final orders of Government are known. This suggestion has been approved by Government in their Resolution No. 6024, dated 17th July 1894. I have since communicated with the Darbár and understand that they have decided not to go further in the matter at present.

68. In this connection it may be noted that the Thákors of Koth and Sanol have presented petitions complaining of the hardship inflicted on them

by the assessment for the purposes of *jama* of certain areas of bhatta land in their respective villages of Watáman and Ganol, which, they contend, are useless for cultivation. Mr. Quin visited both villages and inspected the land. He found that land in Watáman, which generally paid fourteen annas per acre, had been assessed at Rs. 6 and Rs. 8 and that similar land in Ganol had been completely covered with sand, owing to the floods of the previous year. He subsequently came to the conclusion that assessment should only be calculated on the area actually cultivated and submitted a report on the subject to the Collector of Ahmedabad, who has directed the District Inspector of Agriculture to investigate the matter on the spot.

Execution of Decrees.

69. There were 769 decrees under execution under Sections 320 to 325 of the Civil Procedure Code, at the end of 1892-93. Of these, 553 were received from the Courts under Sections 320 and 216 were received direct under Section 322 A. The number received from the Courts for execution during the year under report was 115 as against 161, 151 and 142 in the three preceding years respectively. The number received direct was 16. The total number under execution during 1893-94 was therefore 900. The corresponding number shown last year was 867.

70. Of the warrants to which these decrees relate :—

657 were dealt with by management.
52 were dealt with by sale.
95 were under enquiry.
96 were returned to Courts.

900

71. Of those returned to Court :—

21 were satisfied by compromise.
59 were satisfied by paying the amount from the judgment-debtor's property under management.
3 were returned to the Court as Government declined to sanction the sale.
4 were satisfied by sale of the property.
2 no bid was made.
1 by sale of the crop attached.
4 were returned under Section 325, Civil Procedure Code.
1 was do. 266 do.
1 was returned for want of sanction to the debt under Act VI of 1888.

96

72. The following table shows the manner in which the decrees received in each year and those brought over from the previous years have been disposed of during the last three years :—

	1891-92.		1892-93.		1893-94.	
	Number of Decrees.	Amount.	Number of Decrees.	Amount.	Number of Decrees.	Amount.
		Rs.		Rs.		Rs.
Returned after disposal by compromise, &c.	116	1,30,320	98	76,708	96	67,597
Under payment by instalments from revenue of estates under management	500	4,63,481	619	7,21,379	657	8,60,678
Under process of sale ...	83	1,64,868	87	96,254	52	46,676
Under enquiry	98	26,135	63	86,634	95	1,11,516
Total ...	797	7,84,774	867	9,80,975	900	10,86,467
Amount paid to creditors direct or through the Civil Courts ...	...	38,927	...	76,400	...	70,507

73. It will be seen that the amount paid to creditors during the year under report is somewhat smaller than that paid last year, and the falling off becomes more noticeable when the increase in the debt is taken into consideration. In the three years, for which figures are given in the above table, the percentages of payment to total debt have been 4·9, 7·7 and 6·5. The results of this year's management are therefore not so good as those of last year's; at the same time, considering the unfavourableness of the season, they cannot be called bad.

74. The amount realized from the management of the estates under attachment in execution of decrees and sent to the Civil Court in the year under report was Rs. 68,588 as against Rs. 59,158 in 1892-93. Two estates, or portions of estates, were sold in execution of decrees; in each of these cases the sale took place in pursuance of decrees passed against specific property before the passing of Act VI of 1888, and without the sanction of Government, the High Court, as was remarked last year, having in the marginally noted case held that in such cases sanction is unnecessary.

Kalian Moti *v.* Pathubhai Falji—P. J., 1892, page 94.

75. Five applications were made to Government for sanction to the sale of a Tálukdári estate as against 12 in the previous year. Of these, 3 were rejected and in 2 to which allusion has been made in paragraph 104 *infra*, sanction was given.

76. The number of applications for sanction has diminished considerably, partly owing to the fact that it is so rarely granted, and partly because, under the High Court ruling above quoted, it has been found necessary to hold that in 88 cases the sanction of Government was not required. It must be noted, however, that during the year under report, the High Court have passed a decision in the case marginally noted, the principle of which goes far beyond that of the decision quoted above. The effect of this decision is that in cases, where a decree is passed in consequence of a san-mortgage, and that san-mortgage is an incumbrance within the meaning of Section 2, Act VI of 1888, with its validity untouched by Section 31 (1), the provisions of Section 31 (2) do not apply and the sanction of Government is unnecessary for the sale of the property in execution of the decree. I have brought this decision to the notice of Government, and am awaiting their orders as to what action should be taken in any similar cases which may come into this office.

Appeal No. 454, Nagar Pragji *v.* Jiwabhai Bawaji—P. J., 1894, page 24.

PARTITION.

77. At the beginning of the year under report there were pending 11 applications for partition of Tálukdári Estates and during the year 16 new applications were received as against 18 in 1892-93. There were, therefore, 27 to be disposed of during the year. In 9 of them the partition prayed for was granted. Two were rejected owing to the non-appearance of the applicants; in two, parties were referred to the Civil Court to prove their title; one was withdrawn; and in two the claim to partition was rejected. In one the village was an inám one and therefore the application was rejected for want of jurisdiction. Appeals have been preferred in two cases, in which an order for partition was made; and an appeal was also made against an order rejecting partition. Ten applications are now under enquiry.

SUITS.

78. Thirty-four original suits and appeals were pending at the beginning of the year. Eight new suits were added during the year, making a total of 42. Of these, 17 have been finally disposed of, three of the decisions being in favour of this Department and 10 in that of the plaintiffs. One was withdrawn and three removed from the list, owing to the estates having gone out of the management.

79. Of the cases decided in favour of the plaintiffs, none can be said to be of much importance. The majority were claims against minors' estates on account of debts contracted by the minors' fathers during their life-time, and

after the passing of Act VI of 1888. As the minors were not liable for these debts, it was found necessary to defend the suits, and though the decisions given were adverse to this Department, the decrees passed were against the deceased debtors' property only and will consequently be more or less inoperative, as the amount of property usually left by a deceased Tálukdár is small.

80. The suit of the Thákor of Wala against the Gangad Estate (of which the Collector is administrator) for the sum of Rs. 51,000, alleged to have been owing to the plaintiff from the late Thákor Gagubha, has been rejected with costs by the First Class Subordinate Judge, Ahmedabad. No appeal has been preferred against the decision.

81. The appeal in the High Court relating to the Wánta in the Sánand village-site has not yet been finally decided. The High Court decided that part of the village-site of Sánand is Wánta, but that the evidence on the record was insufficient to enable them to decide its exact limits. The High Court consequently issued a commission to the Tálukdári Settlement Officer directing him to hold a local enquiry and report as to the parts of the site, which should be included under Talpad and Wánta, respectively. The inquiry was commenced by Mr. Quin and a considerable amount of evidence was recorded by him, when on the suggestion of the Thákur's representative and with the consent of the Collector of Ahmedabad, the matter was referred to arbitration. I have not as yet received from the arbitrators any formal announcement of the matter having been arranged, but I understand that the matter has been practically settled and that I shall be able to report to the High Court in the course of a few days.

82. The suit filed by Maganlál Bhaishankar against the Gangad Estate for Rs. 46,000 has been decided by the District Court in his favour. Against this decision, the Collector, as administrator of the Gangad Estate, has appealed to the High Court. The appeal is pending.

83. The following figures show the costs incurred by the estates during the year under report on account of litigation :—

	Rs.	a.	p.
Total expenditure incurred	1,240	8	4
Recovered from plaintiffs	968	9	6
Net cost to Estates ...	271	14	10

The net expenditure incurred during the previous year amounted to Rs. 617-10-8.

Financial Review.

84. The following abstract gives at one view the financial results of the management of the estates for the year under report :—

	Number of Estates.	Gross Revenue, including previous year's outstanding Balances.	Total Revenue realized, including past year's Balances in hand.	Charges of all kinds.						Paid to Creditors.	Balance in hand at the close of the year.	Outstanding Balances written off.	Outstanding Balances at the close of the year.
				Government Dues.	Collections, &c., Charges in the Táluka.	Tálukdári Settlement Officer and Establishment Charges.	Maintenance, Education and other Expenses of Tálukdárs.	Miscellaneous.	Total.				
		Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Estates under Encumbered Estates Acts ...	105	1,69,654	2,03,522	36,550	9,055	4,755	22,001	6,230	78,591	58,542	66,389	7,026	13,295
All other Estates under management	450	4,00,974	6,48,924	1,07,849	19,370	9,018	67,734	61,537	2,65,507	79,615	3,03,802	4,606	52,766
Total ...	555	5,70,628	8,52,446	1,44,399	28,425	13,773	89,735	67,767	3,44,098	1,38,157	3,70,191	11,632	66,061

The details of this abstract will be found in Appendix XII.

85. The percentages of collection, remission and outstanding balances to the total realizable revenue of the estates under management for the year under report and the previous two years are shown in the following table :—

	Years.	Gross Revenue including arrears.	Amount collected during the year.	Amount remitted.	Amount outstanding.	Percentage of Collection.	Percentage of Remission.	Percentage of outstanding Balances.
		Rs.	Rs.	Rs.	Rs.			
Ahmedabad ...	1891-92 ...	4,90,746	4,20,726	20,407	49,613	85·7	4·1	10·1
	1892-93 ...	5,10,165	4,48,865	8,217	53,083	87·9	1·6	10·4
	1893-94 ...	3,39,410	2,92,137	10,935	36,338	86·0	3·2	10·7
Kaira	1891-92 ...	1,46,263	1,14,141	13,172	18,950	78·0	9·0	12·9
	1892-93 ...	1,31,400	1,26,704	1,095	3,601	96·4	0·8	2·7
	1893-94 ...	1,18,847	1,04,107	608	14,132	87·6	0·5	11·9
Broach	1891-92 ...	1,47,189	1,06,971	5,505	34,713	72·6	3·7	23·5
	1892-93 ...	1,18,301	1,07,897	776	9,628	91·2	0·6	8·1
	1893-94 ...	1,12,371	96,691	89	15,591	86·0	0·08	13·9
Total ...	1891-92 ...	7,84,198	6,41,838	39,084	1,03,276	81·84	4·9	13·1
	1892-93 ...	7,59,866	6,83,466	10,088	66,312	89·9	1·3	8·7
	1893-94 ...	5,70,628	4,92,935	11,632	66,061	86·4	2·0	11·5

86. From these figures it will appear that this year the percentage of collections to gross realizable revenue in the Ahmedabad District is slightly, and in Kaira and Broach considerably, lower than in 1892-93. The proportion of remissions has risen slightly in Ahmedabad, but has declined in Broach and Kaira. The percentage of outstanding balances in Ahmedabad is slightly, and in Kaira and Broach much, higher than last year. But the increase in the outstanding balances is only nominal, as will be seen from the explanations given in the following paragraphs. The results on the whole are therefore not unsatisfactory, considering the unfavourable nature of the season in Ahmedabad and Broach.

87. The amount outstanding in the Kaira District is Rs. 14,132, of which Rs. 4,296 belong to the year under report and Rs. 9,836 on account of previous years. Of this amount, Rs. 7,321, relating to the Dehwán Estate, have been brought on the accounts for the first time. The amount outstanding against the Dehván Estate is Rs. 8,659, of which Rs. 8,000 are due from the Bhayats of the Thákor, who at present refuse to pay it. It is possible that when enquiry is made, this amount will have to be written off. The rest of the money will be recovered. A sum of Rs. 2,979 is outstanding against the Nadiád Desái's Estate, of which Rs. 2,437 belongs to years previous to that under report and Rs. 442 to the present year. Steps are being taken to enforce recovery where possible. The rest of the outstanding balance, *viz.*, Rs. 2,494, is due from several estates, and nearly the whole of it is recoverable.

88. The outstanding balance in the Broach District amounts to Rs. 15,591, of which Rs. 4,477 are on account of previous years and Rs. 11,114 for the year under report. Of the latter sum Rs. 7,984 are on account of the Toda Girás allowance of the Jhanore state, due from the Government treasury. As the payment of this sum is only made from the treasury on certain fixed dates, it was found impossible to recover the amount till after the close of the year, and hence it is shown as outstanding. The Sarod Estate has an outstanding balance of Rs. 2,569 belonging to former years; nearly all of this is due on bonds and is being recovered slowly. The Khandali Estate has an outstanding balance of Rs. 2,876, of which Rs. 2,000 is due from the Grássias themselves as tenants. The other amounts outstanding in the Broach District are small and need no remark.

	Rs.
Dhandhuka ...	7,394
Dholka ...	8,737
Sánand ...	4,869
Viramgám ...	11,117
Parántij ...	3,577
Gogha ...	164
Daskroi ...	480
Total ...	36,338

89. In the Ahmedabad District the amount outstanding is Rs. 36,338 in the different tálukas as shown in the margin. The amount is considerably below that, Rs. 53,083, shown as outstanding at the end of last year, the reason for this being that the Sánand and Koth Estate, which had an outstanding balance last year of Rs. 17,908, has been removed from management.

90. In Dhandhuka the amount is not large considering the large number of estates. Of the total sum outstanding, Rs. 6,812 are on account of the current

year. Of this amount, Rs. 3,572 are due from the Tálukdárs of Aniáli Kasbáti and Jhánjharka for debt instalments; the rest are small amounts belonging to a number of estates, which, owing to the unfavourable nature of the season, are not likely to be recovered till next year.

91. The amount outstanding in Dholka is not large. Rs. 3,838 are due from the tenants of Gangad and are recoverable. Rs. 1,678 are due from the Amliála and Chandisar Tálukdárs, but this amount is irrecoverable, as the jama, for which the attachment was imposed, has been paid. Rs. 1,492 are due in Dholi, which will be recovered. The balance is made up of small amounts belonging to several estates, all of which, it is hoped, will be shortly recovered.

92. In Sánand Rs. 3,352 are outstanding from previous years in the Makhiáv, Chekhla, Godhávi and Garodia estates. This amount is not likely to be recovered, as it is owed by poor people and will have to be written off. In Garodia the amount is due from the Grássias themselves, who dispute their liability to pay it; the rest of the outstanding balances is recoverable and measures are being taken for the collection of it.

93. In Viramgám Rs. 3,371 are outstanding on account of previous years and Rs. 7,746 for that of the current year's balances. Of the latter a sum of Rs. 4,400 belongs to the Bhankora estate and is only nominal, as the amount represents the price, at the market rate, of grain collected, but not sold, and hence shown as balance. Rs. 1,728 are due from the Thákardas of Sinaj as rent of land cultivated by them. In Vithlápur Rs. 554 are disputed and in Chaniár Rs. 447 are not recoverable; the rest of the amounts belong to several estates and will be recovered gradually.

94. In Parántij Rs. 3,215 are due on account of former years in the Sagpur and Rojad Estates which came under management during the year under report. The sum is due on account of land in the possession of others who dispute the levy, and will form the subject of a special enquiry. The other outstanding balances in Parántij, Gogha and Daskrohi are small and require no explanation.

95. The amounts remitted during the year under report are Rs. 11,632 in all the three districts. Of this, Rs. 10,935 were remitted in Ahmedabad, the most important items being on account of certain estates in Viramgám where the remissions were granted to the owners of the property themselves, Rs. 1,603 on account of Khas and Rs. 1,122 on account of Gangad. In the Kaira and Broach Districts the sums remitted are too small to call for remark.

96. The following table shows the average percentage of expenses of management to realizable revenue and to actual collection of each district separately and of all three districts together for the year under report:—

Collectorate.		Tálukdári Settlement Office.	Local expenses of Collection, &c.	Total average Percentage.
Ahmedabad... ...	On realizable revenue	2·3	4·9	7·2
	On actual collection	2·7	5·7	8·4
Kaira	On realizable revenue...	2·5	4·8	7·4
	On actual collection	2·9	5·5	8·4
Broach	On realizable revenue...	2·5	5·2	7·7
	On actual collection	2·9	6·1	9·1
Total average percentage	On realizable revenue...	2·4	4·9	7·4
	On actual collection	2·7	5·7	8·5

Working of the Gujarát Tálukdars' Act VI of 1888.

97. Mr. Quin writes that he has but little of importance to remark in connection with the Gujarát Tálukdárs' Act VI of 1888. Two questions in connection with the working of the Act have arisen during the year. One of these, which is purely a matter of procedure, is as to the exact time when a partition should be considered to begin "being effected" for the purposes of attachment under Section 27 of the Act. The second, which has also arisen with respect to proceedings for partition under the Act, refers to the powers of the District Court to order an attachment under Section 27 of the Act to be removed when a precept has been issued by its staying partition. Both these points have been brought to the notice of Government and orders received on them. Mr. Quin also remarks that the number of sales of Tálukdári Estates consequent on the decision of the High Court in Kallián Moti's case (alluded to in paragraph 74 above) has not been so great as he expected; but that there are still several estates and portions of estates liable to sale under that ruling. As I have stated in paragraph 76 above, this decision sinks into comparative unimportance by the side of the decision of the High Court in Nagar Prágji's case. If this ruling remains law, its effect cannot fail to be disastrous to a large number of Tálukdári estates under attachment. By far the larger part of the money now due from Tálukdárs to creditors has been borrowed on san-mortgage, and if, as the High Court have ruled, the mortgagee can insist on the sale of the property without being compelled to obtain Government sanction first, Section 31 (2) of the Act practically becomes a dead letter.

98. The details of the partition cases dealt with during the year are given in paragraph 77 above. There is nothing of importance to remark on the subject.

99. Nine applications for permission to borrow money on the security of Tálukdári estates were pending at the close of last year, the amount to be borrowed being Rs. 37,000. Eighty-three new applications were received during the year as against 54 in 1892-93. There were therefore 92 to be disposed of. In 30 cases, the applications were granted and borrowing to the amount of Rs. 1,60,915 was sanctioned. The loans in these cases varied from Rs. 150 to Rs. 65,000. In 20 cases permission to borrow was refused, the amount concerned being only Rs. 22,754. Forty-two applications are still under enquiry. The largest sums, the borrowing of which was sanctioned during the year under report, were

65,000, by the Tálukdárs of Aghár,
19,000, by Wakhatsing of Cher,
13,000, by Parbhatsing Maghábhai of Fedra,
10,000, by Bhaya Chomla of Kundli.

All these loans were taken in order to carry out arrangements for lessening interest on debts previously contracted.

100. During the year under report sanction was given for the borrowing of Rs. 1,60,915 as against Rs. 4,86,811 in 1892-93, and Rs. 1,63,916 in 1891-92. The amount sanctioned last year was, as explained in para. 107 of the report unusually large owing to the heavy loans of two lákhs and one lákh of rupees taken by the Thákors of Gamph and Kuwar, respectively. The Thákor last mentioned has so far been unable to find any one willing to lend him the sum which he requires and his present creditor has filed a suit to recover moneys lent, which at present amount to over a lákh of rupees.

101. So far as information has yet been suplied to this office, a sum of Rs. 2,68,658 has been actually borrowed by the Tálukdárs from the lenders during the year under report. Of this amount, Rs. 32,658 has been borrowed in pursuance of sanction granted during 1893-94, and Rs. 2,36,000 on permission granted during 1892-93. To ensure that accurate information of the actual loans taken is supplied to this office, care has been taken during the past year to insert a condition in the formal sanction given for borrowing, to the effect that, unless the bonds or other documents executed for the money borrowed, together with the old bonds and receipts are produced in this office within a prescribed period, the sanction will be considered as null and void. In this

way it is hoped that, it will be impossible for any Tálukdár to borrow money under sanction, without this office becoming aware of it.

102. During the year under report 8 estates were newly taken under management at the request of the Tálukdárs under Section 28 of Act VI of 1888. Other applications have been made under that section which have not yet been disposed of.

103. With regard to police arrangements in Tálukdári villages, a slight change has been made during the year in the practice prevailing in Gogha Táluka with regard to the payment to police patels. It had, up to the present year, been the custom for police patels in this táluka as in other tálukas of the district to be paid by the Tálukdárs direct. As a consequence of this arrangement petitions were sometimes received from the police patels stating that their pay was in arrears or had not been given them at all; moreover, there was no proper record at the táluka of the amount of pay received by each police patel. Orders have consequently been issued this year to the effect that all payments should be made through the Mahálkari; this arrangement will enable the emoluments of each Mukhi to be ascertained and will ensure punctual payment. In the case of the Bhávnagar, Láthi and Wala Darbárs, who own villages in the táluka, the orders have been modified so as to permit of their paying their Mukhis direct, as part of their establishment, on the understanding that they submit monthly pay abstracts receipted by the Mukhis. So long as these orders are obeyed, it will not be necessary to enforce the provisions of Act VI of 1888, but should the payments not be made as required, it will be necessary (I am quoting Mr. Quin's note on the subject) to apply to Government to put Section 30 into force. Mr. Quin has had under consideration a scheme for reorganizing the village police in the Dhandhuka Táluka, but has postponed its introduction until after the completion of the revision settlement.

104. The three Tálukdári estates noted in the margin were sold in execution of decrees during the year under report. Two of these sales were on account of decrees against mortgaged property and no sanction from Government was necessary. In the third case the sanction of Government was granted to the sale, under the following circumstances. The incumbrances on the estate were very heavy, and as the whole of the property was in the creditor's possession, the minor had nothing to live on. The creditor offered to allow the minor 12 acres and 34 gunthas of land for his maintenance and to withdraw all claims against the minor, his mother and the estate if the estate was sold to him. As this arrangement was beneficial to the Tálukdár, the Tálukdári Settlement Officer recommended that sanction might be given, a suggestion which Government in their Resolution No. 792, dated January 31st, 1894, were pleased to approve of. A private sale of a field belonging to the Nápa estate in Kaira District was effected under the sanction conveyed in Government Resolution No. 7485, dated 13th October 1893. The sale was made at the desire of the Tálukdárs and the area sold was 3 acres and 22 gunthas and the amount realized Rs. 2,000, a very high price.

Morchand.—Government Resolution No. 792 of 31st January 1894.

Tálukdárs' Jubilee Memorial Fund.

105. Mr. Quin remarks that he is unable to give at all a satisfactory account of the progress of the Jubilee Memorial Institute which was opened in April 1893 and to which allusion was made in paras. 113 and 114 of last year's report. For some reason it is not serving the purpose for which it was intended, *viz.*, as a place where Tálukdárs visiting Ahmedabad could put up during their stay in the city. During the year only a very few Tálukdárs have made use of the Institute and it may have to be considered in the near future whether the expense of renting the building and paying a Secretary is compensated for by the usefulness of the Institute to the Tálukdárs. The two boys who came to reside in it and attend municipal schools last year, continue to live there and are making progress in their studies, but it is not worth while keeping up the Institute and the establishment there for their use alone. I have brought this matter to the notice of the Managing Committee and I trust they may be able to devise a

scheme which will increase the popularity of the Institute. Water has been laid on to the building and furniture for use by the visitors supplied, but there is still something wanting to attract the Tálukdárs who come to Ahmedabad and put up in other places.

Marriage Expenses Reform Movement.

106. The movement for reform as regards the expenditure on marriages amongst the Rajput Grássia Tálukdárs continues to make progress, though as is to be expected in such a matter, the advance is slow. Still there is ground for hope that in time great good will be done. During the year under report draft rules on the lines of those proposed in Káthiáwár have been drawn up by the Ahmedabad Committee, printed at the expense of the Tálukdári Sabha and circulated in all the Grássia villages of the district. The object of this is to familiarize the people with the subject under discussion and to ascertain to what extent the mass of them are ready to support the proposed reform. Mr. Quin remarks that, from what he was able to learn when on tour, he is convinced that the Grassias themselves fully recognize the benefits which will accrue from a general reduction in marriage expenses, and that the movement, if supported by their leaders and above all by the Native States, such as Cutch and those of Káthiáwár and the Mahi and Rewa Kántha Agencies, will be joined in by the others. Unless these Native States take part in the reform, it will not be practicable to bring it about amongst the Tálukdárs of Gujarát. Nothing it is believed has yet been decided in any of the States to whom the matter has been referred, but it is to be hoped that the subject has not been lost sight of. In the Kaira and Broach Districts very little has been done during the year under report, but there is no doubt that when a definite resolution has been come to by the Tálukdárs of Ahmedabad, the Rajput Grássia Thákors of Kaira and Broach will agree to join with them.

107. Mr. Quin remarks that in February last he gave evidence before the Royal Commission on Opium sitting at Ahmedabad. The question of prohibiting the use of opium is one of great importance to the Tálukdárs, as the majority of them are Rajputs who regard opium as a necessary of life. His enquiries showed that something like 50 to 75 per cent of them are habitual consumers of the drug, while almost all take it on some occasion or other. It plays a very important part in their ceremonies and in the hospitalities of their daily life. The great majority are moderate consumers and it is only rarely that one comes across a Grássia whose health or physique has been ruined by the drug. They use it largely as a stimulant for debility resulting from illness or old-age and a habitual consumer will continue for years together to take exactly the same amount every day, without being compelled to increase the dose. The number of habitual opium eaters now is smaller than it was a generation ago, and it seems most probable that in course of time the habit will become less and less general, and its abuse will be even less frequent than now. The Rajput Grássia Tálukdárs never smoke opium. They always take it either dry or mixed with water. They would regard its prohibition with the utmost disfavour and they would be entirely unwilling to contribute in any way towards making up the loss of revenue which would result from the abolition of the duty on opium.

108. In November 1893, two Darbárs were held in Ahmedabad by His Excellency the Governor, one for the Chiefs of Gujarát, and one for the purpose of installing the Diván of Pálanpur as a K.C.I.E. It was intimated to the Tálukdárs of Gujarát that those of them who desired to do so might attend both Darbárs, and 15 Thákors from Ahmedabad, Kaira, Broach and Panch Maháls were present on the two occasions and were given seats befitting their positions. In connection with the arrangement of their seats, there came to notice the inconvenience which must always arise on such occasions from the fact that there is no authorized order of precedence either amongst the Thákors themselves or relating to other persons who may be invited as spectators, on the occasion of a Darbár. As this state of affairs in November last nearly resulted in the chief Thákors declining to attend the Darbár altogether, Mr. Quin afterwards submitted for the consideration of the Commissioner, N. D., whether it would not be well to request Government to issue orders in the

matter settling the precedence of the Thákors *inter se* and relatively to the other classes of persons, whom they are likely to meet at Darbárs and on similar occasions. Government, however, have since ruled in their Resolution No. 2338, dated April 23rd, that the fixing of precedence would entail much controversy and would probably fail to give general satisfaction, and that consequently they must decline to lay down a general rule for the determination of precedence; in the case of necessity arising, precedence is to be determined for the occasion only. Whilst in Ahmedabad, His Excellency was pleased to receive a deputation of the Tálukdárs who presented an address, to which His Excellency made a suitable reply. The Tálukdárs were much gratified at the consideration shown them by His Excellency.

109. Under Government Resolution No. 6696, dated 15th September 1893, Mr. Quin was appointed to settle the boundary disputes between Cambay and the Tálukdárs of Pipli and Moti Boru regarding lands on the Sábarmati. During the year, he again visited Pipli and got as far as the village of Moti Boru, where, however, he was stopped by the tide and was therefore unable to visit the land in dispute. As it is under water several months after the rains, the land could not be measured and mapped till too late in the year for any progress to be made in taking evidence as to the disputed boundary. This work will have to be dealt with next year.

Resumé.

110. The following is a resumé of the operations of this Department during the year under report and the previous two years in all the districts under the several heads mentioned :—

	1891-92.	1892-93.	1893-94.
	Rs.	Rs.	Rs.
Estates under management	584	600	555
Their total revenue	7,84,198	7,59,866	5,70,628
Amount collected	6,41,838	6,83,466	4,92,935
Decrees received from the Civil Courts for execution...	151	142	115
Decrees inclusive of those brought over from previous years executed by compromise, sale, mortgage, &c. ...	699	804	805
Amount paid to private creditors	90,649	1,07,132	1,03,830
Amount paid to Government	56,364	74,822	52,084
Amount paid to Tálukdárs, Thákors, &c., for maintenance and other expenses	1,17,026	1,52,348	89,735
Paid for Government jama	2,00,220	1,98,020	1,44,398
Paid for expenses of collection, supervision, &c. ...	53,098	58,476	42,198
Minor's money invested—			
In Government Security	89,000	49,000	8,000
In landed property	20,000	91,000	46,000
Estates under enquiry for partition	23	24	27
Original suits and appeals	37	53	42
Revenue of Tálukdári villages in the Ahmedabad Collectorate under the revenue charge of this office, collected	3,75,894	3,68,387	3,82,585
Percentage of—			
Collection	81·8	89·9	86·4

Outstanding balances to realizable revenue ...	13·1	8·7	11·5
Percentage of collection and management charges to—			
Total realizable revenue	6·76	7·6	7·4
Actual collection	8·26	8·5	8·5

Establishment.

111. The orders of Government have been received during the year on the application made by certain members of my office establishment regarding their pensions. Government have now been pleased to direct that the office establishment shall be considered Foreign Service of the 3rd kind and that the pension contributions shall be paid by the estates under management. As

regards the arrear contributions which are to be accepted from 1st April 1889, Mr. Quin submitted a representation to Government, in which he pointed out that it would be hard on the Kárkúns in the office, if they were obliged to pay themselves the five years' arrears which are to be taken; and that it would be possible to arrange for at least a very considerable proportion of the amount being recovered from the estates now under management without any injustice being suffered by them. To this proposal Government have been pleased to accord their sanction in their Resolution No. 2019, dated 16th June last.

112. Mr. Quin remarks that his office establishment have again worked well, a remark which, as far as my personal experience goes, I can heartily endorse. He has been quite satisfied with the way in which Mr. Mulji Kalidas who has been *sub pro-tem.* Head Clerk for nearly the whole year has performed his duties, and Mr. Shivshankar Bechar has been as usual an invaluable assistant in dealing with the vernacular work.

I have the honour to be,
Sir,
Your most obedient Servant,
G. S. CURTIS,
Acting Tálukdári Settlement Officer, Gujarát.

APPENDIX XI.

List of Civil Suits conducted by or on behalf of the Tálukdári Settlement Officer, Gujarát, 1893-94.

No.	Name of Plaintiff.	Name of Defendant.	Subject.	Remarks.
1	2	2	4	5
		SUITS PENDING AT THE CLOSE OF LAST YEAR.		
		Ahmedabad Collectorate.		
1	Girdharlál Hargovan of Viramgám.	The Collector of Ahmedabad as Administrator of the Estate of minor Himatsing Mobatsing of Bhánkoda.	To establish claim to receive the income of the Golwádi Darwája Choki in Viramgam, the amount being in deposit in the Viramgám Mámlatdár's treasury in execution of the plaintiff's decree against the Tálukdár of Chaniár.	The Joint Judge of Ahmedabad dismissed the plaintiff's claim with costs. Against this decision the plaintiff has appealed to the High Court. As the defendant minor has attained majority, the Collector is no longer a party to the suit. It is, therefore, removed from the list.
2	Do. do. ...	Do. do. ...	Do. do. ...	Do. do.
3	The Secretary of State for India in Council (appellant).	1. Máhárána Shri Ranmalsingji Bhagwatsingji, Thákor of Sanand and Koth. 2. The Tálukdári Settlement Officer, Gujarát (respondents)	To establish the claim of Government to certain site in Sanand which has been decided by the District Court of Ahmedabad to belong to the Thákor.	Pending in the High Court.
4	Motiba, widow of Jaswatsing Agarsing of Gángad.	The Collector of Ahmedabad as Administrator of the Gángad Estate.	To establish that Motiba's son Rámsingji is not spurious.	High Court rejected the appeal, finding the boy to be spurious.
5	The Collector of Ahmedabad as Administrator of Gángad Estate.	Motiba, widow of Jaswatsing Agarsing of Gángad.	To resume certain land from Motiba's possession on the ground that she being a widow is only entitled to maintenance and not to all the lands given to her husband in Jiwái.	High Court rejected the Collector's appeal finding that the widow is entitled to enjoy the land till her death.
6	Maganlál Bháishankar	The Collector of Ahmedabad as Administrator of Gángad Estate.	To recover Rs. 46,277-9-10 on account of pay, &c., alleged to be due to plaintiff from the Gángad Estate.	The District Court passed decree for the amount claimed. The Collector has filed an appeal in the High Court. It is pending.
7	Amichand Wasandás of Wásna Kelia.	1. The Tálukdári Settlement Officer. 2. The Mámlatdár of Dholka ...	To obtain a decree directing the defendants not to levy on behalf of Abhesing Khodáji and others whose estate was under attachment in execution of decrees, enhanced rent and produce of fruit-trees on the land in the plaintiff's possession as tenant, and to recover the amount already levied from him.	Plaintiff not held to be a permanent tenant, but allowed the produce of fruit-trees until notice be given to him by defendants. Against this decision of the Joint Judge the plaintiff has appealed to the High Court.
8	Fulchand Jesing	The Collector of Ahmedabad as guardian of minors Bápubha and Chandarsing Dájiráj of Ranpur.	To recover a sum of Rs. 288 including interest at 2 per cent. per mensem.	The Joint Judge of Ahmedabad passed a decree for Rs. 130 with interest at only 1½ annas per mensem. The rest of the claim was dismissed. The plaintiff has appealed to the High Court. It is pending.
9	Vyás Jádavji Devkarsan and Shivrám Devkarsan of Gamph.	1. Narsingji Arjansingji ... 2. Dulabh Jhaver ... ... 3. The Tálukdári Settlement Officer, Gujarát.	To obtain possession of the village of Ankewalia by virtue of a mortgage-deed.	The District Judge passed a decree in favour of plaintiff.
10	1. Bibi Fatmábibi, daughter of Fajaleali Divánji, deceased, by her heir Sayad Fakrudin valad Najumia of Cambay. 2. Rajudin valad Najumia ... 3. Bibi Husenbibi, daughter of Najumia Fakrudin.	The Tálukdári Settlement Officer as Manager of the Dharoda Estate by consent of its owners and judjment-creditors.	To recover Rs. 300, being the income of the plaintiff's $5\frac{23}{35}$ share in the Dharoda Estate.	Sub-Judge passed a decree in plaintiff's favour. The defendant has appealed to the District Court. The appeal is pending.

APPENDIX XI—*continued.*

G. S. CURTIS,
Acting Tálukdári Settlement Officer, Gujarát.

REMARKS OF THE COMMISSIONER, N. D., ON THE ADMINISTRATION REPORT OF THE TA'LUKDA'RI SETTLEMENT OFFICER FOR THE YEAR 1893-94.

No. 3457 OF 1894.

REVENUE DEPARTMENT.

Commissioner N. D.'s Office, Ahmedabad, 21st September 1894.

Forwarded to Government.

Officers in charge.

2. The report relates to the revenue year ending 31st July, and as Mr. Quin proceeded on leave on the 14th April last, the office was held during the last three and a half months of the year by Mr. G. S. Curtis in addition to his own duties as Assistant Collector.

Tour.

3. Mr. Quin's tour was confined principally to the Ahmedabad District, but he was able to visit the head-quarter stations of the Kaira and Panch Mahâls Districts. Broach was again not visited. The revision settlement is in progress in the Ahmedabad District, and necessarily Mr. Quin was obliged to spend a good deal of the travelling season in that district. The reason assigned for the time spent at head-quarters is satisfactory.

Season.

4. As compared with the preceding year, the season was not so good during the year under report in the Ahmedabad and Broach Districts in consequence of the excessive rainfall having caused damage to the kharif and cotton crops. The rice crop was, on the other hand, excellent, but a heavy fall of rain at reaping time considerably damaged it. In the Kaira District the season was on the whole good, though the excessive rain injured the rice crops.

Number of estates under Act VI of 1862 and XXI of 1881 in the Ahmedabad, Kaira and Broach Districts.

5. The following table shows the number of estates under management in each district, and the progress made during the year in the settlement of their liabilities:—

District.	Number of Estates under management.	Debt at the beginning of the year.			Advances from Government Treasury during the year and interest accrued up to 31st July 1894.	Payment during the year.			Debt at end of the year.			Reduction of debt.	Percentage reduction of debt.
		To Creditors.	To Government.	Total.		To Creditors.	To Government.	Total.	To Creditors.	To Government.	Total.		
		Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.

Total ...	101	1,60,246	3,04,549	4,64,695	32,921	25,840	52,084	77,924	1,34,406	2,85,286	4,19,692	45,003	9·7

Estates in the Ahmedabad District.

6. The total number of estates under management in the Ahmedabad District is now 58, the debts of four having been paid off during the year, but only 24 are directly under the management of the Tálukdári Settlement Officer, 30 being managed by the Tálukdárs themselves and 4 by the creditors.

7. Total debt amounted to Rs. 2,68,775, of which Rs. 1,26,256 were due to private creditors and Rs. 1,42,519 to Government. The progress of settlement is represented by a total payment of Rs. 42,142 or an average of 9 per cent. against 10 per cent. in the preceding year, while the reduction of debt is 6·1 per cent: against 7·7 per cent. The settlement effected is not so satisfactory as in the last year, and this is accounted for as due to the unfavourable nature of the season.

8. Debts of private creditors were paid off to the extent of Rs. 17,757 by advances obtained from Government and Rs. 5,021 by collections from Táluk-

dárs. Thus the amount due to creditors has been reduced from Rs. 1,26,256 to Rs. 1,03,478, while the amount due to Government has risen from Rs. 1,42,519 to Rs. 1,48,695. It is deplorable that only so small a sum as Rs. 5,021 should have been paid by the Tálukdárs. Last year rather more than double that amount was recovered from them. As observed above, the season is accountable for this result, but it is still gratifying to learn that the Viramgám Estates have all done fairly well, and that the Makhiao Estate has been able to pay something towards the liquidation of its debts. Measures are in progress to effect an improvement in the condition of this estate, and as the recalcitrant sharer has consented to bear his share of the cost of improvements, the prospects appear to be brighter. No reference has been made this year to the Návda Estate, so that it may be presumed that it remains in its usual unsatisfactory state. The Bhál Drainage Scheme still hangs fire, but looking to the good it would do to the health of a large number of human beings, it might be carried out without direct gain being shown to accrue to the revenue. The Kasbáti Latifkhán of Dholka still demurs to accepting the new lease, urging the old argument that he is not a lease-holder.

Estates in the Kaira District.

9. The number of estates in the Kaira District has been reduced to 34, the debts of four having been liquidated during the year. With one solitary exception they are all doing very well, and it will be seen that the amount due to private creditors is very small, only Rs. 6,091. The explanation given in paragraph 22 of the small payment made to private creditors is satisfactory. On the other hand, there is a large sum due to Government on account of advances obtained. During the year Rs. 28,611 were repaid, and Rs. 1,29,547 still remain for repayment. The average payment was 18·1 per cent. against 17·7 per cent. last year, and the percentage of reduction of debt was 13·8 against 13·15, which, as compared with the results in Ahmedabad, is very satisfactory.

Estates in the Broach District.

10. There are now only 4 estates under management in the Broach District, one having been released during the year. They are all reported to be in a fairly prosperous condition and the average rate of debt settlement is 18·5 per cent. This does not compare favourably with the previous year, but in that year very large payments were made under special circumstances in the case of two estates. Rs. 24,852 now remain due to private creditors and Rs. 7,044 to Government.

Minors' Estates.

11. The number of minor's estates under management has fallen to 48, seven having been released on the owners attaining majority, one on the death of the owner and three having been taken under management during the year. One of these latter is a large estate with a cash balance of Rs. 11,000 and assets amounting to Rs. 2,78,100 in lands, mortgages and money claims. Seventeen of the estates are shown to be unencumbered. Further investments have been made in landed property in the cases of the estates of Jhanor and the Mátar and Nadiád Desáis. Investments in Government paper and landed property have been made in the case of five estates. The total investments in Government paper amount to Rs. 52,000 and in landed property to Rs. 1,37,000, while the cash balance amounts to Rs. 54,352.

12. Attention continues to be paid to the education of the minors. The young Thákor of Utalia still attends the Rájkumár College, and is reported to be doing well. Nine of the boys attend the Grássia School at Wadhwán, and of the rest two attend schools in the city of Ahmedabad. The others receive instruction in the village schools.

Other estates under the Tálukdári Settlement Officer.

13. The following estates are also under the management of the Tálukdári Settlement Officer:—

359 under Section 320 of the Civil Procedure Code.
5 under Section 504 of the Civil Procedure Code.
23 by consent of owners under Sections 26 and 28 of Act VI of 1888 and for various other reasons.
10 under attachment for default in payment of the Government jama.

14. The total number is thus 397 against 431 in the preceding year. Of the 359 estates first mentioned, 308 are under managemenet while 51 are under process of sale. Of those under management, 40 were released during the year, while 54 were newly added. The most important of these is the Gángad Estate, and the litigation in connection with the succession to it is still in progress. The scheme sanctioned by Government for the liquidation of the debts of this estate has not been carried out owing to none of the local capitalists coming forward to take up the loan on the security of the estate. If this loan can be negotiated at a rate of interest which will be remunerative to the estate, it is proposed to free the Báwla Wánta and other outlying properties of encumbrances with a view to their sale, the proceeds being utilized to liquidate the debts of the estate. The fact that only Rs. 5,000 were paid during the year to secured creditors while the unsecured received nothing, indicates the pressing necessity for carrying out the scheme sanctioned by Government. Hopes are entertained that the negotiations in progress will be shortly brought to a successful conclusion. The arrangements for the introduction of the Bighoti system have been completed, and the rates to be levied from the year 1894-95 have already been announced to the cultivators.

Gángad Estate.

15. The decision of Mr. Beaman in the Sial and Baoli boundary dispute has not given satisfaction, and the Gángad Estate which has lost about 4,000 acres by transfer under this decision to the Limdi Chief proposes to submit an appeal against Mr. Beaman's award.

Sial and Baoli boundary dispute.

16. The settlement of the disputes in connection with the Bhankoda Estate, which Mr. Quin was hopeful to effect, has not been accomplished owing to further disputes having arisen among the sharers. But it appears that there are still hopes of a settlement being effected at an early date.

Bhankoda Estate.

17. The settlement of the debts of the Aghár Estate has been very satisfactorily effected, the total debt of about a lákh and half having been compromised for Rs. 70,000.

18. Of the Miscellaneous Estates under management, three have been released during the year, one being that of Musámia of Sháh Állum (Ahmedabad). The estate is now free of debt, and the owner is reported to be an intelligent man. Another released estate is that of Koth, which has been under management for 3½ years, and has now been handed over to the young Thákor in a highly prosperous condition, but it is unfortunate that he has again quarrelled with his mother.

Miscellaneous Estates.

Estate of Musámia of Sháh A'llum.

Koth Estate.

19. The post of Taláti has been conferred on the young Kasbáti of Chándna in his own village after some preliminary training, and he is doing his work satisfactorily. This is encouraging, and it may be hoped that the good example will be followed elsewhere, should similar cases exist.

Kasbáti of Chándna.

20. The account of the Gámph Estate is not encouraging, but it appears that the Thákor takes considerable interest in the management and has effected some sanitary improvements in the village in which he resides.

Gámph Estate.

21. The Tálukdári Settlement Officer had under his revenue charge 357 Tálukdári villages, all of which are in the Ahmedabad District. The Government jama from these villages amounted to Rs. 3,82,585 (inclusive of Rs. 29,426 on account of Local Funds) as compared with Rs. 3,73,973 for the preceding year. With the exception of Rs. 4,733 due from the Navda Estate, the entire amount has been collected. Owing to the unfavourable season the revenue of the Návda Estate has fallen from Rs. 6,698 (net) to Rs. 4,641 (gross), and it is expected that Rs. 3,718 will have to be written off eventually. The dispute between the original Káthi owners of the village of Aniáli-Káthi and the purchaser

Revenue charge of the Tálukdári Settlement Officer.

(a Bombay merchant) has not been settled, as the former still wish to repurchase the village, while the latter is desirous of effecting a settlement by a grant of land or a lump annual payment to the Káthi owners.

22. The Local Fund collections in the Ahmedabad Tálukdári villages have risen from Rs. 26,478 to Rs. 29,426 owing to the introduction of the revised jama settlement in the Dholka Táluka, but it is unsatisfactory to find that only 42 per cent. of the collections, as compared with 53 per cent. last year, and 56 per cent. in the year before, were spent in these villages during the year under report. The Tálukdári Settlement Officer, however, promises to see that in future a fairer proportion is devoted to them. In the Kaira District 70 per cent. of the collections were expended in the Tálukdári villages from which they were raised.

Inspection and repair of boundary-marks.

23. A new arrangement has been introduced with the sanction of Government for the inspection and erection and repair of boundary-marks in the Tálukdári villages. The entire cost of the establishment maintained for this purpose will be borne by Government, whereas formerly a moiety was contributed by the Tálukdárs, and the repairs will be carried out exactly as in Government villages under the Land Revenue Code.

Examination of the accounts of Tálukdári Estates.

24. Mr. Quin examined the accounts of the Tálukdári Estates kept in the Mámlatdárs' offices at Dhandhuka, Dholka, Sánand, Viramgám, Mátar, Mehmadabad, Nadiád and Anand, and Mr. Curtis examined those in Parántij. This inspection, which was inaugurated only last year, has resulted in an improvement in the state of the accounts.

Revision Survey.

25. During the year Mr. Holland has been engaged in the Panch Mahals in the survey of the Tálukdári villages in that district and in maturing proposals for the settlement of the revised maximum rates in the Sánand and Viramgám Tálukas. Proposals for the Dhandhuka Táluka have already been submitted to Government. The rates for the Gogha Mahál have been sanctioned and proposals will shortly be submitted for fixing of the jama of the Tálukdári villages in that Mahál.

26. The Tálukdárs of the Dholka Táluka, of whose villages the jama settlement has been sanctioned by Government, have not acquiesced in the amount fixed under the revised settlement and have submitted petitions which are now under the consideration of Government. The Utelia Darbár has also intimated its intention of having recourse to the Civil Court to test the legality of the right of Government to increase the jama, but further action has been stayed pending the orders of Government on the petitions of the Tálukdárs.

Execution of decrees.

27. The number of decrees under execution was 900 against 867 in the preceding year. One hundred and fifteen were received from the Courts during the year as compared with 142 last year. Of the total number only 95 were under inquiry at the close of the year; of the remainder 657 were dealt with by management, 52 by sale and 96 were returned to the Courts for various reasons. It will be seen that a large number is under the system of gradual discharges and hence the total number must always appear to be on the increase, but these decrees may be considered as practically satisfied. The amount paid to creditors is somewhat smaller than last year, but this was due to the unfavourable season.

Applications for sale of Tálukdári Estates.

28. The number of applications to Government for the sale of Tálukdári Estates has again been fewer. The recent decision of the High Court in connection with decrees passed in consequence of sán-mortgage will still further reduce the number of applications to Government. The Tálukdári Settlement Officer has brought this decision specially to the notice of Government and their orders are awaited.

Partitions.

29. The number of applications for partitions has fallen from 18 to 16, and including the balance of the previous year, there were 27 applications to be dealt with. Of these 17

were disposed of, leaving a balance of 10. In 9 cases the partition sought was allowed.

Suits.

30. The total number of suits and appeals for disposal during the year was 42 as compared with 53 last year; 17 have been disposed of, only 3 of the decisions being in favour of the defendants. One suit was, however, withdrawn and 3 others were removed from the list owing to the estates having been removed from management. It is reported that none of those decided in favour of the plaintiffs was of much importance.

31. The appeal to the High Court in the Sánand Wánta suit against Government is still pending. The High Court has issued a commission to the Tálukdári Settlement Officer to inquire and report what portions of the village site are Talpad and Wánta, respectively, in order to enable the Court to define in its decision the exact limits. The inquiry would be a very complicated one, but in the meanwhile it has been proposed to settle the matter by arbitration. A report on the subject has been submitted to Government.

Outstanding Balances.

32. The total outstanding balances amounted to Rs. 66,061 as compared with Rs. 66,312 in 1892-93 and Rs. 1,03,276 in 1891-92, but the percentage of collections has not risen proportionately as it is slightly lower in Ahmedabad and considerably so in Kaira and Broach. There was a slight increase in the percentage of remissions in Ahmedabad and a decrease in Kaira and Broach. The amount outstanding in Ahmedabad has declined from Rs. 53,083 to Rs. 36,338, principally owing to the Sánand and Koth Estate having been removed from management and Rs. 17,908 belonging to that estate having been eliminated from the accounts. In the Kaira District the balance has increased from Rs. 3,601 to Rs. 14,132, of which Rs. 8,659 belong to the Dehwán Estate and Rs. 2,979 to the estate of the Nadiád Desáis. In the former Rs. 7,321 have been brought on the accounts for the first time. In the Broach District the total amount outstanding is Rs. 15,591 as compared with Rs. 9,628 in the previous year, but of the former sum Rs. 7,984 are due to the Jhanor Estate from the Government Treasury, and as the payment is made on fixed dates, the recovery could not be made within the year. The Tálukdári Settlement Officer has furnished satisfactory explanation as to the progress in the collection of the recoverable portion of the balances in each district.

Working of the Gujarát Tálukdárs' Act.

33. The most important question in connection with the working of the Gujarát Tálukdárs' Act is that referred to in paragraph 28 *supra*. The Tálukdári Settlement Officer observes that the decision of the High Court will prove disastrous to a large number of estates under attachment, as the greater part of the money borrowed by the Tálukdárs is on sán-mortgages and Section 31 (2) of the Act will practically be a dead letter.

Applications for loans.

34. The number of applications for raising loans has increased from 54 to 83 during the year under report, but the amount involved in these loan transactions is not so large as in the previous year in which sanction to two heavy loans was granted to the Thákors of Gámph and Kuwár. The latter has not yet been able to raise the loan. The total number of applications, including those pending from last year, was 92, of which 30, involving loans of Rs. 1,60,915, were sanctioned, while 20, involving loans of Rs. 22,754, were refused. In all cases the loans were allowed with a view to arrangements being made to lessen interest on existing debts. The Tálukdári Settlement Officer has taken measures to ascertain the amounts actually borrowed.

Village Police in Tálukdári villages.

35. The arrangements introduced into the Tálukdári villages of the Gogha Mahál for the payment of Police Patels will ensure punctuality in their receiving their pay. The reorganization of the Village Police in the Dhandhuka Táluka is under contemplation.

Sale of Tálukdári Estates.

36. Three Tálukdári estates were sold in execution of decrees. In two cases the sanction of Government was not necessary and in the 3rd the necessary sanction was accorded by

Government. A private sale of a field in the Nápa Estate was also effected with the sanction of Government.

Jubilee Memorial Institute.

37. The Jubilee Memorial Institute at Ahmedabad does not appear to be popular as it is not made use of by the Tálukdárs visiting the city. It is under consideration whether under the circumstances the institute should be maintained.

Marriage expenses of Rajput Grássias.

38. It is to be feared that the Tálukdárs of Gujarát will not take any definite steps in the matter of marriage expenses unless the Chiefs and Thákors in Cutch, Káthiáwár and the Mahi and Rewa Kánthas initiate the movement. Measures are, however, in gradual progress for the introduction of the reform, and hopes are still entertained of eventual success.

Darbár at Ahmedabad.

39. The Darbár held at Ahmedabad by His Excellency the Governor was attended by 15 of the Gujarát Tálukdárs. The question of precedence among the Tálukdárs themselves and relatively to the leading native gentlemen in the city, was submitted to Government, as a real difficulty had arisen which was only removed on the occasion in question by the exercise of considerable tact.

Boundary dispute.

40. Mr. Quin was unable to settle the boundary dispute between Cambay and the Tálukdárs of Pipli and Moti Boru. The work will be undertaken during the current year.

Office establishment.

41. The question regarding the pensionary claims of the office establishment has been satisfactorily settled during the year, the establishment being considered in foreign service of the 3rd kind, and all arrears of pension contribution having been recovered.

42. The report is a record of good work on behalf of a thankless class, many members of which undo the good that has been effected for them, and Messrs. Quin and Curtis are therefore entitled to the more credit.

J. K. SPENCE,
Commissioner, Northern Division.

Annual Administration Report of the Tálukdári Settlement Officer for the year 1893-94.

No. 2320.

REVENUE DEPARTMENT.

Bombay Castle, 22nd March 1895.

Letter from the Tálukdári Settlement Officer, No. 768, dated 10th August 1894—Submitting his Report on the Administration of the Tálukdári Settlement Department for the Revenue year 1893-94.

Memorandum from the Commissioner, N. D., No. 3457, dated 21st September 1894—Submitting the above report with his remarks thereon.

RESOLUTION.—Mr. Curtis, who was in charge of the office of Tálukdári Settlement Officer during the last three and a half months of the year under review, has submitted a clear and interesting report, which is mainly based on notes left by Mr. Quin. The report has been reviewed in detail by the Commissioner, N. D., and calls for very few remarks from Government.

2. The financial results of the year's administration are not as satisfactory as those of the preceding year, which is chiefly attributed to the unfavourable nature of the season in the Ahmedabad and Broach Districts. The percentage of collections to the total realizable revenue of the several estates under management fell from 89·9 in 1892-93 to 86·4 in 1893-94, while the percentage of outstanding balances rose from 8·7 in 1892-93 to 11·5 in 1893-94. There was also a slight increase in the total percentage of remissions granted during the year under review, as compared with the previous year.

3. On the question of the new lease to be issued to the Kasbati Latifkhán of Dholka, a petition from the Kasbati has been recently received by Government and referred for remarks to the Commissioner, N. D., on the receipt of whose report final orders will be passed in the matter.

4. The Governor in Council notices with regret that the Tálukdári Settlement Officer could not carry out during the year the scheme for the settlement of the debts of the Gangad Estate, as finally sanctioned by Government in their Resolution No. 5660, dated 5th August 1893, owing to the difficulty experienced by him in raising a loan on the security of the estate, and trusts that the further efforts made by that officer to induce some capitalist to lend the requisite amount will be ultimately successful. The appeal against Mr. Beaman's decision in the dispute between the Gangad Estate and the Thákor Sáheb of Limbdi regarding the boundaries of Siál and Bávli, referred to in paragraph 43 of the Report under notice, has been received in the Political Department and is under the consideration of Government in that Department.

5. In Government Resolution No. 296, dated 14th January 1895, the requisite orders have been passed on the proposals for the revised maximum rates to be levied in the tálukdári villages of the Dhandhuka Táluka. Final orders on the petitions from the tálukdárs of Dholka in the matter of the revised jama settlement introduced into their villages from 1893-94 will be issued on the receipt of the further report called for from the Tálukdári Settlement Officer in Government Resolution No. 8455, dated 15th October 1894.

6. With reference to paragraphs 76 and 97 of the Report under review the attention of the Tálukdári Settlement Officer should be invited to the opinion of the Remembrancer of Legal Affairs, communicated to him with Government Resolution No. 74, dated 5th January 1895. The arrangement made by the Tálukdári Settlement Officer to keep himself informed of the amounts actually borrowed from time to time by the several tálukdárs under his sanction is approved.

Digitized with financial assistance from

Government of Maharashtra

on 01 February, 2020

7. Government concur with the Commissioner, N. D., in his opinion that the new arrangements for the payment of Police patels introduced during the year by the Tálukdári Settlement Officer into the tálukdári villages of the Gogha Táluka will ensure the punctual receipt by the patels of their authorized remuneration.

8. It is satisfactory to notice that the movement for reform in the matter of marriage expenses amongst the Rájput Grassia Tálukdárs continues to make steady progress both in the British districts of Gujarát and in the Native States of Káthiáwár, Cutch and the Máhi and Rewa Kántha Agencies. The Governor in Council trusts that the Native States concerned will lend their support to this praiseworthy movement in their respective territories. Extract paragraph 106 of the Report should be forwarded to the Political Department for information and for such action as that Department may wish to take thereon.

JOHN NUGENT,
Chief Secretary to Government.
